We would like to show you a description here but the site won't allow us. The somatosensory system is a part of the sensory nervous system. The somatosensory system is a complex system of sensory neurons and pathways that responds to changes at the surface or inside the body. The axons (as afferent nerve fibers), of sensory neurons connect with, or respond to, various receptor cells. Sensory receptor cells are activated by different stimuli such as heat and cold. A villainous antagonist is a common driving force behind conflict in stories, so it makes natural sense to write one in. But villainy requires performing villainous acts; a villain who doesn't really act on those is difficult to root against.
