Books of blood are a series of horror fiction collections written by the british author clive barker. there are six books in total, each simply subtitled volume 1 through to volume 6, and were subsequently re-published in two omnibus editions containing three volumes each. each volume contains four or five stories. "the inhuman condition" is the first clive barker book i've read and its bound not to be the last. every story in here shines perfectly with all the elements that make good horror stories: panic, revulsion, terror, and just a light dash of black humor (the human protagonists in these stories are often stupefied by the events taking place).
