

Waring Magician Tissue Flag New York

Chapter 1 : Waring Magician Tissue Flag New York

The space environment is so inconvenient for human beings. there is so much that one has to bring along to keep them alive. life support has to supply each crew member daily with 0.0576 kilograms of air, about 0.98 kilograms of water, and about 2.3 kilograms of (wet) food (less if you are recycling)me kind of artificial gravity or a medical way to keep the bones and muscles from wasting away.
